City Sleuths – Las Vegas Program Overview

Are you familiar with scavenger or treasure hunts as team building activities? Well, **City Sleuths** is Team Craft's clever upgrade that is based on finding the answer to a series of riddles. This is a team building activity that works well for a group wanting a clever and engaging way to develop teamwork and relationships while participating in a less structured program format.

The standard program lasts from 2.5 to 3 hours. An extended version runs for 4.5 hours and includes a mid-course facilitated discussion to improve teamwork during a second round.

Riddles & Strategy

Each team is given a collection of riddles to solve. Teams are directed to a section of the Las Vegas Strip to search out the answers. Figuring out each riddle leads them to a location where they'll find a little known humorous or curious fact related to amusing curiosities, famous people, or artistic or creative aspects of the location – and score points. Teams compete to score the most points.

What makes this activity so unusual and fun is that written riddles given to each team require participants to identify curious and historic elements by working past the obvious and easy answers. Each riddle is designed to challenge assumptions and typical ways of thinking, but also uses

shared knowledge of general trivia and observation to generate the answer. To be successful teams need to be creative – think outside the lines – but still follow a logical thread. First impressions are typically wrong. So teams are coached to have each member share observations and ideas.

The riddles cleverly cloak the identity of the street a team needs to go to, the object to look for, and the information needed there. It requires effective communication, shared problem solving, and open minds – all important elements of successful teamwork.

Experience The Las Vegas Strip

Program locations include The Venetian, New York New York, or Caesars Palace—all conveniently located on the famous Las Vegas Strip. Participants discover work of artisans mixed with facts about local celebrities and historic elements of national interest. Whether along the canal in the

Venetian or walking the streets of Greenwich Village in New York New York, City Sleuths points out the kitschy

and humorous pearls in nooks and crannies that otherwise get lost in the sea of noise and hype that is Las Vegas. . . Sort of like opportunities in business!

Team Craft Facilitators

support teams as appropriate. Each riddle is allotted points given its difficulty. Highest scoring team members are each awarded an engraved gold teamwork medal on a ribbon. Everyone receives a memento of the experience. We debrief the experience so participants can identify skills that were needed to be successful and relate them to work situations.

Let us solve the riddle of what program to do for your upcoming team activity. City Sleuths may well be the answer you're looking for!
